

Geography

We will be exploring the geography of our school, locating the school on a map and learning compass directions, all leading towards making our own school maps and using them to find locations around the grounds.

Science

Our learning in Science this half term is all about the weather and the seasons. The children will be learning to be meteorologists!

Art

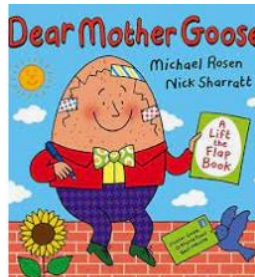

Our Art this half term is about abstract compositions, inspired by the work of Piet Mondrian and Bridget Riley.

Music

Our Charanga music this half term is linked to exploring Old School Hip Hop. We will listen to and appraise lots of classic Hip Hop songs and learn to sing our own!

English

We are starting out with a focus on Nursery Rhymes. We are learning as many rhymes as we can and enjoying the book 'Dear Mother Goose', including writing our own letters to Mother Goose.

Class 1 Curriculum Planning

Autumn Term 1 2021

Our wider curriculum planning is based on the topic

Our School

Nurture, Inspire, Achieve

Maths

Autumn always starts with a focus on number and place value as these concepts underpin all our learning in maths. We start by sorting, counting, reading and writing numbers in order, then thinking about 2 digit numbers and how we represent these as 10s and 1s.

We will then be moving into lots of work on addition and subtraction with lots of opportunities for problem solving and investigating along the way.

PE

Our new PE expert, Mr Pugh, will be leading our weekly lessons on a Tuesday afternoon. He will be working with us to improve our functional movement and overall fitness and exploring some invasion games.

We will also continue to be as active as we can throughout the week, so PE kit is needed in school every day.

RE

This is the half term where we think about changes.

We will be welcoming in our new starters into Reception and learning about what will happen as we move into year 1, Year 2 and Year 3. This is a chance to reflect on how we have changed and grown and how expectations and responsibilities alter as we grow up. We will be exploring our emotions and thoughts about change.

PSHE

We have a fab new scheme of work called SCARF.

This half term we are learning about 'Me and my relationships'
