

Class 2 HOMEWORK Summer Term 2 – 2022

All children are expected to complete the following each week:

1. Spelling – Children will be explicitly taught statutory spellings through morphology, etymology and other creative ideas. Children will also have a selection of words to learn each week at home, which they will be tested on each Friday.
2. Times tables – Year 3 children are expected to learn their 2,3,4,5,8 and 10 times tables, Year 4,5 and 6 up to 12 x 12. Knowledge of times tables form a vital foundation for many mathematical topics covered in the year.
[Times Tables Games \(maths-games.org\)](http://maths-games.org)
3. Reading – Children are expected to read 5 x per week with an adult. Parents and carers are required to record the reading by writing in their reading records.

Homework projects / spelling / times tables: Activities and projects will be set half termly. Homework tasks consolidate learning taking place in school.

The children will get more out of the homework projects if they apply themselves correctly and these are designed to encourage creativity. **Children who rush their projects and do not spend an appropriate time on them will not gain the benefits of our homework policy.**

Tasks are for EVERY child to engage in, please choose at least one task to complete this half term.

Please bring all homework into school on or before Thursday 20th October so that it can be displayed and celebrated during a sharing session on Friday 21st at 9am to which all are welcome.

Thank you for the ongoing support with your child's home learning,

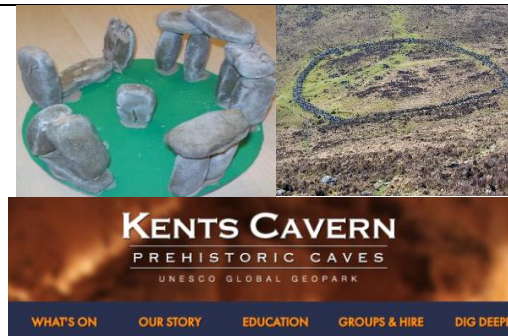

Mrs Dickinson.

Project 1 – History

We are learning about the Stone Age to Iron Age and I would like you to make a 3D model of a dwelling (it could be a cave or an Iron Age roundhouse) using similar materials that would have been available in the Stone Age.

Project 2 – Art/DT

For this project, I would like you to make a model of Stonehenge or a significant Stone Age feature or try whittling or carving something out of wood/stone and take photos along the way to show the 'work in progress'.

Alternately you can visit a Kents Cavern, Torquay to look at cave paintings or visit the Grimspound settlement on Dartmoor and record your visit with photos, drawings and words.

Project 3 – Science

To complement our learning about physical and chemical changes in Science I would like you to do some practical applications at home through cooking and take photos of what you do and bring in what you make.
