

Class 2 HOMEWORK Autumn Term – 2021

All children are expected to complete the following each week:

1. Spelling – Children will be explicitly taught statutory spellings through morphology, etymology and other creative ideas. Children will also have a selection of words to learn each week at home, which they will be tested on each Monday. We do encourage that you test or practice these spellings at home as this will further consolidate your children’s knowledge of the English language. These spellings are essential for writing / spelling assessments that take place during the year.
2. Times tables – Year 3 children are expected to learn their 2,3,4,5,8 and 10 times tables, Year 4,5 and 6 up to 12 x 12. Knowledge of times tables form a vital foundation for many mathematical topics covered in the year.
[Times Tables Games \(maths-games.org\)](http://maths-games.org)
3. Reading – Children are expected to read 5 x per week with an adult. Parents and carers are required to record the reading by writing in their reading records.

Homework projects / spelling / times tables: Activities and projects will be set half termly. Homework tasks consolidate learning taking place in school. Studies have shown that home learning can be extremely important in a child’s cognitive development.

The children will get more out of the homework projects if they apply themselves correctly and these are designed to encourage creativity.

Children who rush their projects and do not spend an appropriate time on them will not gain the benefits of our homework policy.

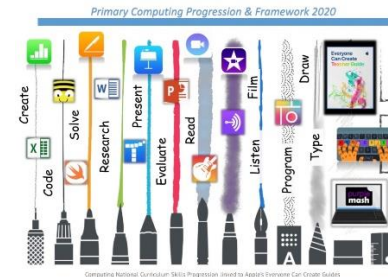

Project homework tasks are for EVERY child to engage in. Choose **one** task to complete this half term and another to complete next half term.

Please bring all homework into school on or before Monday 18th October so that it can be displayed and celebrated on Thursday 21st from 9-9.15 in the school hall, to which you are all welcome.

Thank you for the ongoing support with your child’s home learning,

Mrs Dickinson.

Project 1 – Computing

For this homework project, I would like you to invent your own digital device. You will need to draw your device, write what the inputs and outputs are, what the device is for and how the device can help us. If you are feeling really creative, you can make a model of your device too!

Project 2 – Art

For this project, I would like you to create a world collage. You are to draw, print and stick a collage of patterns from around the world. Search magazines or the internet for images of patterns that can be found in nature, man-made objects, surfaces or designs, Roman or Islamic patterns. Draw a decorative border with the title of 'WORLD PATTERNS' at the top of the page. Remember presentation is important, so present carefully and creatively!

Project 3 – P.E.

This term we are learning the rules and tactics involved in invasion games so for this homework project I would like you to design a new invasion game. Write a short description of your game, a set of rules, a list of equipment needed and draw diagrams to help someone to understand your game or take photos/videos of you playing the game – remember your game needs a name! Could your game be played in the Olympics or the Paralympic Games?
