

Class 2 HOMEWORK Summer Term 2 – 2023

All children are expected to complete the following each week:

1. Spelling – Children will be explicitly taught statutory spellings. Children will also have a selection of words to learn each week at home, which they will be tested on each Friday. Please test or practice these spellings at home as this will further consolidate your children's knowledge of the English language. These spellings are essential for daily writing together with writing / spelling assessments that take place during the year.
2. Times tables – Year 3 children are expected to learn their 2,3,4,5,8 and 10 times tables, Year 4,5 and 6 up to 12 x 12. Knowledge of times tables form a vital foundation for many mathematical topics covered in the year.
[Times Tables Games \(maths-games.org\)](https://www.maths-games.org/)
Times Tables Rock Stars – children have their individual log ins. Also URBrainy is very good for timed practice.
3. Reading – Children are expected to read 5 x per week with an adult. Parents and carers are required to record the reading by writing in their reading records.

Homework projects / spelling / times tables: Activities and projects will be set half termly. Homework tasks consolidate learning taking place in school. Studies have shown that home learning can be extremely important in a child's cognitive development.

The children will get more out of the homework projects if they apply themselves correctly and these are designed to encourage creativity.

Project homework tasks are for EVERY child to engage in. Choose **one** task to complete this half term.

Please bring your projects into school by Friday 8th July ready for sharing with parents and friends on Monday 10th July at 8.50am

Thank you for the ongoing support with your child's home learning, Mrs Dickinson.

Project 1 – DT

For this project, I would like you to use your learning in DT that vegetables and fruit grow in certain seasons and follow a recipe to make a sweet or savoury dish using only seasonal produce grown in the U.K.

Project 2 – Science

I would like you to create a poster or powerpoint to encourage children to be active in line with the government recommendation for 5-11 year olds to aim to be physically active for at least 60 minutes per day across the week. Make your presentation colourful and eye catching and suggest lots of different sports, games and activities that they could do.

Project 3 – English/Music

In preparation for our summer concert I would like you to rehearse your chosen poem so that you know it by heart and can perform it for your family. Watch this link for tips and research other poets performing their work [Michael Rosen's top tips for performing poems and stories - YouTube](#) Also to practice the songs that we will be singing for our audience.
